

Jorgeluis Done

Perth Amboy, NJ | Email: Jd1763@scarletmail.rutgers.edu | LinkedIn: linkedin.com/in/jdone-202ba528b | GitHub: github.com/jd1763

Education:

- Rutgers University, B.S. Computer Science (2023–2025), GPA: 3.5, Dean's List
- Middlesex County College, A.S. Computer Science (2021–2023), GPA: 3.6, High Honors

Technical Skills:

- Languages: Java, Python, C++, SQL, C, R, JavaScript, HTML, CSS
- Tools: Android Studio, IntelliJ, Eclipse, VS Code, Tomcat, Gradle, JUnit, Git
- Languages: Fluent in English and Spanish

Projects:

- RU Pizzeria Android App (Java, Android SDK, JUnit)
 - Built an Android pizza ordering app using OOP principles (inheritance, polymorphism)
 - Implemented Singleton pattern for order management and JUnit tests for bug prevention
 - Used RecyclerView, Toast, and AlertDialog to enhance UI responsiveness.
- Online Railway Booking System (Java, SQL, JSP, HTML, CSS)
 - Developed real-time schedule and reservation management system.
 - Used JDBC + MySQL to build efficient queries and reduce redundant operations.
 - Deployed with Eclipse + Tomcat for optimized backend performance.
- HTTP Server with Authentication (Python)
 - Built a secure HTTP server with cookie-based sessions and authentication.
 - Implemented request routing and concurrent access handling.
 - Collaborated on testing strategy to increase system robustness.

Work Experience:

- Target Corporation, Team Member Trainer (2021–2024)
 - Delivered training and onboarding for new hires, improving team productivity.
 - Used in-store systems to manage inventory and scheduling.
 - Supported logistics by tracking items and maintaining leadership communication.
