Taylor Quinn — Platform Engineer

Email: taylor.quinn@example.com | Location: Remote (US)

SUMMARY
Platform engineer focused on event streaming and cloud primitives for internal developer platforms.

SKILLS (Preferred targets only)
Kafka · Spark · Airflow
AWS · S3 · IAM · ECS · EKS
React · TypeScript · GraphQL

EXPERIENCE
Platform Engineer — Cloud Systems Inc.
- Operated multi-tenant Kafka clusters and Spark jobs for real-time ingestion.
- Built Airflow DAGs and observability around data pipelines.
- Delivered internal tools in React and TypeScript using GraphQL APIs.
- Automated cloud access and RBAC using AWS IAM; deployed services on ECS/EKS with IaC

EDUCATION
BS, Information Systems (in progress)
